

Super Speedy Mixing AN-Series

After crushing, granules from AN-Series will be delivered via blower to the coned-shape storage barrel. Through bypass of slanting tube to the "Y" shape mixer for immediate reclamation of granules and finished products making. The process needs only 30-50 seconds. AN-Series is the best investment machinery that makes your business more profitable. The equipment is available in direct recycling applications of injection molding, blow molding, or to be modified to material packaging type and even well suited for excess material outward delivery.

極速混合 AN 系列

AN系列可於粉碎後立即透過風車，將顆粒吹送至錐型儲料桶，藉由斜管連接至Y型混合器，只需30至50秒之間，立即將碎料回收製成成品，投資效益極佳，非常適用於射出成型、中空成型等立即回收作業，改裝成袋裝型或作為餘料外送亦十分恰當。

Key Specifications

- Resources recovery. Superb high- speed of materials recycling, instant blending of regrind/virgin materials for production of finished products.
- Versatility. AN-Series is compatible for combination using with any other series of Pulian's crushing machines and conveyors.
- Can be used for packaging and residue material discharging purposes.
- Simplifying processes of Crushing, Blending and Delivery.

An ultimate solution equipment for reclamation.

AN Series / AN系列

MODEL	機 型	AN-50
Power of blower	風車馬力	1/6 or 1/2 HP
Hose diameter	輸送管徑	Ø50mm
Capacity of storage barrel	儲存桶容量	5kg
Y-Shape blender	Y型混合器	Ø60mm

ANA-200

ANS-260

ANAH-260

特點

- 再資源化・超速回收粉碎料・立即混合製成成品。
- 多場合彈性組合・AN系列均可搭配普聯任何系列粉碎機與輸送帶組合使用。
- 可當袋裝型與餘料外送設備。
- 將粉碎、混合、輸送...等流程簡化・是最理想的回收設備。

Versatile Model / 彈性組合機型

(Compatible for combination using with any other series of Pulian's crusher) / 普聯任何系列粉碎機均可搭配組合

MODEL	機 型	ANA-200	ANS-260	ANAH-260
Power (HP)	馬 力	3-5HP	2-3HP	2-3HP
R.P.M.	轉 數	280/380rpm	200rpm	25/30rpm
Inlet size	粉碎口徑	200 x 240mm	260 x 220mm	258 x 258mm
Rotary cutter	迴轉刀數	3pcs	3pcs	(Claw cutter 2 pcs) (Teeth cutter 3 pcs)
Stationary cutter	固定刀數	2pcs	2pcs	3pcs
Machine weight	機械重量	265kg	160kg	210kg
