

ar-75B Roller-Press Conveying SERIES

PET CUP Blow molding machine, after producing, it is left net waste material. They are usually be shredded twice. Now it can be used by AR-75b series. The waste material can be granulated by AR-75b machine directly, it can solve the problem of waste material's banking.

ar-75b Roller-Press Conveying SERIES

PET 杯成型機，在完成杯子的製作後，所遺留下的網狀廢料，以往都是捲成整卷再作二次處理。現在可以透過 AR-75b 系列，立即在線上將遺留的廢料拉至 AR-75b 機器中，作相同線速度立即粉碎，可以達到立即解決廢料堆積的困擾。

Feature

- (1) After PET board making machine
Produces, granulate surplus material immediately.
- (2) Special design for 90 degree turning system can be installed next to production line to granulate immediately.
- (3) AR-75b adds a cooling system can run 24 hours.
- (4) Optional Air Blower can move surplus material right away.

特點

- (1) PET 製杯機生產後餘料立即粉碎用。
- (2) 特製 90 度轉彎系統，可隨時安裝主機生產線旁，立即粉碎。
- (3) 粉碎機加裝立即冷卻系統，可 24 小時使用。
- (4) 配合風車立即移除粉碎料。

MODEL	機 型	AR-75b
Power	馬力(HP)	25
Inlet Size	入口尺寸(mm)	785x74
Max. Material Width	最大料寬(mm)	785
Max. Material Thickness	最大料厚(mm)	0.05~3
Roller Speed	滾輪速度(m/min)	0~35
Roller Power	滾輪馬力(HP)	1
Rotary Cutter	迴轉刀數(pcs)	3
Stationary Cutter	固定刀數(pcs)	1
Machine Size	機器尺寸(mm)	1670x2730x2480
Machine Weight	機器重量(kg)	1200
Optional Blower	選配風車(HP)	10
